

I respectfully urge you (the FCC) to reject the NAB's petition 04-160. I personally benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that is not available elsewhere, especially the traffic and weather. It allows me to get this information exactly when I need it without waiting for the local broadcasts scheduled reports. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I strongly support XM's ability to provide the kind of programming that I demand and deserve. Again, please reject the NAB's petition 04-160 to limit and control my constitutionally granted right to free speech.
